International Journal of Applied Business and Information Systems (IJABIS)

International Journal of Applied Business and Information Systems is an international, peer-reviewed, open access, online journal of applied research in the field of Business and Information Systems. It is published two times a year in March and September in electronic format with free online access.

(eISSN: 2597-8993)

Organized by International Journal Of Applied Business And Information Systems

Published by Association for Scientific Computing and Electronics, Engineering (ASCEE)

W: <http://pubs.ascee.org>

E : ijabis@ascee.org

The purpose of the journal is to publish original and high-quality research papers in the field of business information systems. The journal will be published research papers on the following topics:

- Business Applications
- Business Process Modelling
- Business Intelligence
- Business Management
- E-Business, E-Commerce
- Enterprise resource planning (ERP)
- Management Information Systems
- Corporate Information Systems
- Security Issues in Business Information Systems
- Information Systems and Risk Management
- Information Systems Development
- Database and Data Management
- Data warehouses
- Information Systems Control and Audit
- Decision Support Systems
- Collaborative Systems
- Knowledge Management
- Artificial Intelligence Applications in Business
- Mobile Business Information Systems
- Web and Internet
- E-Government
- E-Learning
- Information Systems Ethics

Reviewing process

All papers will be subjected to peer review and are expected to meet standards of academic excellence. A blind review process will be used, employing 2 or 3 scientific reviewers. The criteria for evaluation of each paper are:

- Importance of Topic
- Relevance for the Journal
- Writing & Organization
- Literature Review
- Research Methodology
- Findings and Discussions
- Conclusions and Implications for Theory and Practice
- Ideas for Future Research

Author(s) will be notified of the outcome via email, using the declared address.

Fees and Charges: **FREE of Charge.**

Table of Contents

Design Improvement of Queuing System Using Simulation and Six Sigma: A case study <i>Widya Setia Findari, Yohanes Anton Nugroho</i>	1-8
Education Game Kit “Princess Stick and Color Sword” For Preschooler by Using Tcs3200 Color Sensor and Arduino Nano <i>Dwi Ratnawati, Vivianti Vivianti</i>	9-13
Measuring enterprise architecture readiness at higher education institutions <i>Adam Sekti Aji, Tri Widodo</i>	14-20
A Decision Support System of Scholarship Grantee Selection Using Moora <i>Rodhiyah Mardhiyyah, Rr. Hajar Puji Sejati, Devi Ratnasari</i>	21-27
An empirical investigation on the effect of Mobile Banking Services on Financial Performance of Deposit-Taking SACCOs in Kenya <i>David Muchangi Mugo</i>	28-38
